September 23, 2020 – Automated Message sent to EUP Virtual Online Collaborative Students

Dear Parent and Guardians,

Hello this is LaSalle High School Principal Gregg Fettig. A copy of this message will be posted on the “Headlines” section of LaSalle High School Website that is a newly labeled headline called, “EUP Virtual Online Collaborative Information Center.” This newly created information center will be where LHS students and parents can find information and support for the EUP Virtual Online Collaborative. The purpose of this message is to communicate with all students who are enrolled and currently taking online classes to remind students to make sure they have gone in and accepted the invitation to each of their assigned classes. Students should be logging each day and working in each of their respective classes and communicating with their online teachers. Additionally, under this “EUP Virtual Online Collaborative Information Center,” we have included information of how parents can connect and check on students’ progress and grades by creating a parent account and linking to your child. Also included in this support center is information of how students can upload files and submit assignments into the Canvas Learning Management System. We have also included a document with some updated “Frequently Asked Questions.” and we will continue to update this document throughout the semester. Additionally, we have also posted information in this information center for any students who are choosing enrollment in this virtual learning option from pre-school through 12th grade are eligible to receive daily free breakfast and free lunch as part of our school food program. I encourage you to review all this information.

Furthermore, If you have questions and concerns about this information provided, I am holding a student and parent workshop on Friday September 25, 2020 from 3:30 PM – 5:30 PM in the high school cafeteria to help answer any of the questions about setting up parent accounts and other items we can be helpful with. We hope students continue to work and to progress with their online learning. Thank you and have a great evening.
